INTERNSHIP

AI-ML Developer Dec 2023 - Feb 2024
eduskills *Hyderabad*

- Developed and optimized machine learning models using the XGBoost algorithm for predictive analytics.
- Worked on feature engineering, data preprocessing, and model evaluation to enhance prediction accuracy.
- Contributed to the deployment of AI solutions, integrating them into real-world applications for improved decision-making.

Frontend Developer April 2023 - June 2023
eduskills *Hyderabad*

- Gained hands-on experience in developing dynamic and responsive web applications using Angular.
- Collaborated with cross-functional teams to design and implement user-friendly interfaces.
- Enhanced application performance by optimizing components and integrating RESTful APIs.

PROJECTS

Loan Approval Prediction System: Developed a machine learning model for loan approval prediction using Python and the XGBoost algorithm. Engineered features from financial datasets to improve model accuracy and efficiency. Implemented robust data preprocessing and model tuning techniques, resulting in high predictive performance. Successfully deployed the model for real-time loan approval decision-making, enhancing the speed and reliability of financial services.
